Nevada City Nugget

VOLUME III, NUMBER 4 THE GOLD CENTER NEVADA CITY, NEVADA COUNTY, CALIFORNIA. THE COUNTY SEAT PAPER DECEMBER 10, 1928

OFFICIALS HOGE DEVELOPMENT COMPANY HERE

Messrs. Chas. L. Walthers and C. D. Scully of Pittsburg, Pa., are here for a few days as the guests of Arthur W. Hoge and family. Mr. Walther is president of the Penn-California Mining Co., and the largest individual investor.

Mr. Scully is one of the most prominent lawyers of Pittsburg and is vice president of the Hoge Development Co. Messrs Scully and W. E. Wright of Nevada City are counsel for the Hoge Development Company.

Messrs. Hoge, Walthers, Scully, and Wright, and their associates in Hoge Development Company, also own the big majority interest in Penn California.

This is Mr. Scully's first visit to California gold fields, and he is naturally very much interested in seeing the new operations, that Mr. Hoge is developing upon the properties of the Hoge Development Co. During the past week the installation of electric power and electric equipment has been completed, and the work of development is now going steadily forward, by machine drills under the supervision of Billy Genasci, who is in charge of operatons.

This company has already got some excellent ore , and as they are in a virgin territory, and in control of an immense acreage, they are certanly in a fine position to devlop an immense producer. And Hoge and his associates can be depended upon to carry this big project through to a successful conclusion, as they are clased as being the most progressive operation in the Nevada City district.

KNIGHT OF PYTHIAS ELECT COMING YEAR

Milo, Lodge, Knight of Pythias reelected William C. Jeffrey as chancellor commander for the year at its meeting Friday evening. Other officers are Carl Larsen, Vice Chancellor; Atherton S. Lord, Prelate; Charles Bouvier, master of work; J. C. E. Foss, keeper of records and seals; Clarence Shurtleff, master at arms; John Boreni, inner guard; James B. Young, outer guard; W. P. Sawyer, physician; C. A. Shurtleff, trustee.

One member was added to the rolls by affiliation.

HENRY HUCKINS GETS WORD OF BROTHER IN LAW DEATH

NORTH SAN JUAN, December 9 (Special to The Nugget)—Henry Huckins received a telegram this morning announcing the death of his brother in law, C. A. Anderson of Berkeley Saturday night. Mr. Huckins is leaving in the morning for Berkeley to attend the funeral.

Mr. and Mrs. George Downey have as a visitor their daughter, Mrs.

DILLON-BROWN SUIT GOES IN FAVOR OF DEFENDANTS

Superior Judge Raglan Tuttle today rendered his decision in the case of Frank Dillon vs Gilman Brown carried up from justice court, to the effect that insuffcient evidence has been introduced to show the defendants guilty of the charge.

6 Mrs. Annie Landsburgh is ill with the flu.

Miss Clara Carson is visiting in Oakland.

Mr. and Mrs. J. E. Taylor and daughters, Marian and Sibyl, spent a week visiting in San Francisco.

Miss Marie Bertino,, chief operator of the Pacific Telephone and Telegraph Company, attended a convention of chief operators in Sacramento last Thursday.

Mrs. John O'Donnell is home from a month's visit in Fresno and San Francisco.

Mr. and Mrs. A. W. Quick spent last week end with relatives at Loomis. While there Mr. Quick enjoyed a successful quail hunt.

Rev. Father O'Doniovan of Downieville was in town Wednesday.

WINTER SUPPLIES TAKEN IN INDIAN HILL MINE

CAMPTONVILLE, Dec. 8,—Frank W. Camp arrived a few days ago to take charge of Indian Hill Hydraulic Mine, a new company having a lease on the property which has been operated by the Frank S. Margan Company of Berkeley for the past three years.

Camp's company has made a success of other similar properties and they are hopeful of doing some good work at Indian Hill. They have taken in around 8000 pounds of granular powder and other supplies. They were unfortunately late in coming into the country, and had to truck the powder through over a foot of snow. It was impossible to go by truck power so the large caterpillar of the Oak Valley Lumber Company was used to take the truck into the mine.

As soon as the preliminary work is finished they will begin to put the mine in order for the seasons run. Some changes and improvements will probably be made in this work.

Camp is an old time miner, having returned from the Alaskan mining fields only a short time ago. His wife accompanied him here and she will have charge of the boarding house.

Indian Hill Mine is one of the oldest of the local hydraulic mines, dating back to the early days at which time Indian Hill was quite a little community with flourishing apple orchards and sedate residents, and a large amount of gold was taken from the channels. Much of the ground remains untouched, and it is hoped that the present company will be successful in obtaining more of the earth's wealth from this old river bed.

RIGHTS OF WAY BEING SECURED TAHOE UKIAH

It is hoped that the securing of rights of way for the new fourteen mile stretch of the Tahoe Ukiah state highway eastward from Nevada City to Junction House can be secured by the first of the year so that bids can be advertised in January. The state highway commission has $300,00 set aside for this project which is destined to become one of the state's main cross arteries in the next few years.

The property owners generally along the new survey which will provide a maximum grade of six per cent up Harmony Ridge, have cooperated generously in singning up deeds for the right of way required by the state for construction purposes. With the contract let, it will be possible to have the right of way cleared and construction work started by early summer. The state is to surface the road when completed which will give a fine year around road to the junction of the Washington road.

SERVICES CONDUCTED BY LOCAL PREACHERS

Rev. H. H. Buckner and Rev. W. Charles Pearson made a trip into Sierra county the past week, conducting services at Sierra City Thursday and at Downieville Thursday evening. The services at Sierra City Thursday were at the funeral for Charles Shillingford and were in charge of Rev. Buckner. Friday afternoon a program was given for the Camptonville school children at the Labadie home.

Cooley Butler, Los Angeles mining man, interested in the Grass Valley district, and his field engineer, Mr. Griggs arrived Wednesday evening and remained here for several days attending to business matters pertaining to the mines.

Mrs. M. E. Stephens has as a visitor Miss Viola Wilson of Log Cabin.

Henry Meyers of Tyler was here Thursday. His son, Roy, came up from Oakland to visit him.

Mrs. Guy Smith of Pardee Dam is vititing her parents, Mr. and Mrs. B. L. Syms.

The water was turned off in the city mains yesterday afternoon to flush the pipes.

GUM TAPPING OPERATIONS STARTING LARGE TRACT ALREADY UNDER WAY

With gum tapping operations formally inaugurated the past week on a large tract of timber on Deer creek just above Nevada City, the ambitious plans of California Timber Products, Inc., to develop immense turpentine and allied products industry in this section are now well under way and should acquire a full momentum by the coming summer.

A crew of five men tapped 1500 trees the past week on the property of the Deadwood Mining Company and the work of hanging cups will be pushed as fast as the cups arrive from the factory. The crew is being gradually increased the cups arrive from the factory and as the men become accustomed to the work three more are being added this week and initiated into the mystery of operating the tools and setting the gutters and cups. The ground about the trees is being cleaned up and the trees trimmed. The pine needles are being removed from each tree from two to three feet. It is expected that the needles will be made into lamp back at the factory. This will remove a bad fire menace from the properties where tapping is carried on and with the brush and undergrowth cut out which has been popular with the practice burning, those wishing forage will have to go into the discard as fires and tree tapping are not in common and if the property owners wish to secure revenue from turpentine production it will be necessary to keep fire off the premises.

One feature that will appeal to the older generation is that in the gathering of the gum from the cups, Mr. F. C. Ernst, vice president and superintenedent of operations for the company, proposes to use older men that are not fitted for heavy work, as the work of gathering is not severe. This will be paid for on a poundage basis.

Mr. Ernst is employing timber owners wherever possible as this will secure the earnest cooperation of the owners in making for successful operation of the industry. Floater laborers will not be considered except where the labor supply is short. With the addition of worth while families to settle in this section will make for contented citizens The industry will employ up to 200 men when fully under way.

No further work has been done at the factory site owing to nontions for the building to house the arrival of the plans and specifica- refinery and offices. The site for the refinery has been cleaned off and leveled up. The city trustees have practically completed rocking the new street to the site.

New tracts will be prepared regularly for tapping and by the coming of spring a large acreage will be ready to start production of the raw product which will be transmuted into many forms by the magic art of chemistry.

NEWLANDS PROJECT TRIES FOR DONNER LAKE WATER

The Newlands irrigration project a government reclamation enterprise near Fallon, Nevada, is reaching after water storage in Donner Lake in addition to its use of the waters of Lake Tahoe.

The proposal of the Truckee Carson Irrigation District is to draw on the waters of Donner Lake in the fall to keep up the flow in the Truckee river for the Sierra Pacific Power Company, which supplies Reno and surrounding territory with power. A dam would be built at the lower end of the lake to maintain a minimum level in the lake so as not to destroy its value as a resort. Water filings have also been made on Cold creek with the state division of water resources the pat few weeks.

W. A. Pray, mining and civil engineer and U. S. deputy mineral surveyor of Fenrley who is connected with the project, was a Nevada City visitor the past week going over the county records.

FR. EDMUND RYAN CROSSES THE DIVIDE

The funeral of Reverend Edmund J. Ryan, beloved member of the Jesuit order, who served as pastor of St. Canice church during the absence of Father O'Reilly in the summer of 1926, was held yesterday morning from the historic church, old mission Santa Clara, interment being made in the cemetery of the University of Santa Clara.

Father Ryan was field secretary of this institution for many years.

Death came to this esteemed prelate, after a lingernig illness, at Colfax, last Wednesday morning.

During his residence in this city Father Ryan took an active interest in all civic matters and gained the high esteem of all who met him and recognized his fine personality and high ideals of sterling citizenship. Father Ryan rendered valuable assistance in the historical pageant put on in this city July 4, 1926, especially on the Father Serra and California Mission Division which was so ably demonstrated.

Stanley Price has returned to his home at French Corral after a stay here of a few days. He has been under a doctors care.

Mrs. Mary Hicks of San Francisco is here visiting her daughter, Mrs. James J. Dillon.

NILON SIDDLES PASSED AT DECOTO LAST WEEK

Nilon B. Siddles who has been a resident o fthe Masonic Home at Decoto, passed away last week at the ripe age of almost 80 years, lacking but a few days. The remains were brought to Nevada City and services were conducted from the Jefford & Son Parlor yesterday afternoon. The beautiful service of the Masonic Order was impressively rendered by Past Master William E. Meservey with the assistance of the officers of Nevada Lodge, of which deceased was an honored member.

Mr. Siddles was born at Friendville, Pa., Dec. 19th, 1848 and had spent the past 56 years of his life in California. Attending the funeral were the following relatives: a son Joseph Siddles and family of Sacramento, Mrs. F. L. Green of Los Angeles, a daughter; Pardow Head of Los Angeles and the only one his brothers' and sisters' family living. Mrs. L. E. Rowley, a daughter of San Leandro, and family. Mrs. Alonzo LeDuc of Grass Valley was ill and unable to attend the services. Mrs. Albert Rowe of Grass Valley is a daughter.

The pall bearers were Bert George George W. Zembsch, Henry Hosking, W. G. Richards, J. F. Stenger and Arthur F. Hellings. Interment was made in the Masonic cemetery.

GEORGE CARPENTER HAS CROSSED OVER DIVIDE

NORTH SAN JUAN, December 9 (Special to The Nugget)—George Carpenter pased away this morning here after a brief illness. H returned Wednesday from Escalon saying to his siter in law, Mrs. Lohman, that he had come home to die. Everything possible was done for him but owing to his advanced age, he was prepared to meet his Maker. Funeral arrangements await the arrival of the son from Escalon.

He was born in Illinois, Februaryq 22, 1848. Most of his life was spent in the vicinity of Pike City where he followed ranching and owned property. He leaves a son Ralph living at Escalon; a sister, Mrs. Henry Huckins, and two brothers, Ad and Ed Lohman of this place.

The remains were taken in charge by the Holmes Funeral Home of Nevada City.

A heavy snowstorm is in progress at time of going to press.

LINDGREN, NOTED AS A GEOLOGIST WILL VISIT

Waldemar Lindgren the noted geologist for many years connected with the U. S. Geological Survey and more recently at the head of the Economic Geology Department in the Masachusetts Institute of Technology is expected to visit Nevada City and Grass Valley in January in company with representatives of the eastern interests which have recently acquired contract of the Western Mines Consolidate, Inc.

Mr. Lindgren made a report on the properties of the Western Mines Consolidated, Inc., and is said to have recommended their development along the plans recommended by Mr. A. D. Foote, the president of the Company.

Mr. Lindgren's report on the Grass Valley mining district in the 17th annual report of the U. S. Geological Survey made in 1893, is considered by geologists to be a very noteworthy record and one which has stood the list of actual mine development in a very remarkable manner.

BANK OF AMERICA IS ANNOUNCING ITS POLICY

Speed and efficiency marked the growth of the Bank of America of California over the week end. When it closed Saturday it had fifty-four branches. When it opened this morning, it had ninety-three. This was the second change in the bank within a few days, as it changed its name from United Security Bank and Trust Company to Bank of America of California just a day or two earlier.

The added branches are not new banks, with three exceptions. They are affiliated banks which have been bought up during the last year and a half. but had been operating independently. They were taken in by permission of the State Bank Superintendent, and will continue to run just as in the past, but under the new name, and with the added efficiency and convenience of standardized operation.

The "take-over" was a big job, requiring the complete closing of the books in each bank affected and the installation of the methods used by the Bank of America of California. It was accomplished in each case by the local bank force, aided by inspectors from the auditing department of the head office.

According to bank officers, the public will notice no difference except in the names on windows and bank stationery, which will soon be changed.

While but thirty-nine branches were added to the Bank of America of California, forty-five independent banks were taken in to the larger institution. The reduction in numbers was caused by the combining of two or more separate banks in each of several cities into one branch.

The ninety-three branches now constituting the Bank of America of California system do NOT include the banks of the Merchants National Trust and Savings Bank of Los Angeles, recently announced as merging into the Bank of America. They will enter the system at a later date. The system also owns a number of banks which will continue to operate independently. Banks included in the transfer, with the former names of the banks, are listed below. In each case the bank will in future be known by the name of the town in which it is located, together with the Bank of America of California name.

A GIFT SUBSCRIPTION MAKES ENJOYABLE REMEMBRANCE

This is merely a suggestion but when you are wondering about what to send the absent member of the family or some distant relative, why not make it a year's subscription to The Nugget? It is one of the most inexpensive presents you could send yes one that would give pleasure and satisfaction for the whole year.

Superintendt M. E. Olsen of the Mohawk mine has returned from a short trip to Yakima, Washington. His wrist is still in a cast from its recent injury. He reports the shaft as having gotten into solid ground at the mine.

GRAND JURY HAS FILED A REPORT OF PROCEEDINGS

The 1928 Nevada County Grand Jury completed its labors shortly before noon today and lled the summary of its findings with Superior Judge Tuttle. The outstanding feature of the report aside from the special auditors' report printed in The Nugget of November 19th is a comment on the cash balance of $222,355.51 carried by the county. It states that a considerable portion has been carried as an inactive account in different banks since 1923. The statement was made to the grand jury that this was carried to take care of any emergencies that might arise but when the bridge loss occurred, an extra tax levy was made, leaving the large amount of money on deposit.

The reports of the various committees covering the various offices in the court house showed that they found things neat and clean and conducted in a business-like manner. The county jail was reported in a clean and sanitary condition. It was recommended that the sheriff's aupto be armored and provided with bullet proof windshield.

The County Hospital was reported n a very satisfactory condition, the management of Mr. Rodda reported efficient, the food of good quality and sufficient quantity and inmates well cared for. An oil burning heating system was recommended. The County Farm looked to be doing well and conducted at a profit by Manager Tobiassen.

The report was signed by Fred F. Cassidy as foreman.

NEW GRAND JURY PANEL DRAWN TODAY, TUTTLE

Superior Judge Raglan Tuttle drew the following panel of grand jurors for 1929 today. The talesmen, 30 in number, have been summoned to appear Friday, December 21st, 11 a. m., and select a membership of 19. The list follows:

Nevada City—Jos. F. Stenger, S. Lee Leiter, G. W. Gildersleeve, Wade Armstrong, Fred Yost, Hermine Brand.

Grass Valley—C. Bierwagen, A. B. Snyder, C. E. Clinch, E. K. Smart A. T. Jones, Bessie King, Elizabeth Hooper, Lillian Shaw, C. H. Barker, J. R. Kneebone, Louise Wales, Harold Biggs, Bernice Glasson, Gertrude Miller, George H. Shirkey, Elizabeth Armstrong.

French Corral—N. B. Bishop.

North Bloomfield—William Buck

Truckee—Phil Blume, Robt Tonini.

North San Juan—H. W. Huckins

Rough and Ready—D. M. Loney

Chicago Park—Paul Ullrich.

Washington—H. O. Kohler.

DEVELOPMFNT OF SIBERIA AT CHEROKEE PROGRESSES

Badger Hill presents a busy appearance these days as development work at the Siberia and Salmon mines progresses steadily. The road from Cherokee to the properties is being heavily graveled in preparation for the hauling of considerable heavy machinery in the near future.

Work at the Siberia consists of running raises, developing and prospecting and will continue steadily through the winter. The property is a very promising one. E. B. Frost is in charge of operations for San Francisco insterests.

It is reported that the Parnall interests operating the Salmon property have also taken over the mining properties of John Curnow in the same district. Development work is going ahead through the winter at this property and Chrokee which has sen a checkered existence looks to be getting ready to assume some of its former glory.

The quail hunters have not been bringing in very bags due to the latenes of the season opening. The present storm will not help the shooting any.

Thomas McCabe was a San Francisco visitor last week.

ORIGINAL DEFECTIVE

NATIONAL COFFEE SHOP PROGRESS

We hope to have the plastering completed in the Coffee Shop by Thursday of this week and also the carpenter work. Then the painters and paper hangers will take possession.

It is our sincere hope and wish to be able to reopen the Coffee Shop by New Years Eve.

Particulars later.

COZY CORNER CHAT

WITH THE TURPENTINE industry now fairly well started on the road to becoming a big institution in this county and this part of it particularly, it is well to take a little look about and see how many good things have been happening the past two years around here. One noticeable feautre is that the price of property and rents have been hitting the high spots lately in the residence line, which is always a sure baromenter that things are prosperous. Houses empty in Nevada City and few and far between and when The Nugget publisher came to town there were plenty of them to be had for a song. It partly goes to prove at least that a town to amount to anything must have its own newspaper to fight its battles and to advertise its resources to the big world outside. There isn't a paper anywhere that is directly interested in Nevada City's future except The Nugget if you stop to think about it. MORAL—Get behind it and give it every encouragement.

NEXT SUMMER WILL SEE the pine tree gum operations in full blast, with a refinery in operation and turning to good account something that has never been utilized heretofore from local trees aside from several sporadic efforts which died aborning in years gone by. Mr. F. C. Ernst, who has been carrying the whole enterprise, has no stock to sell, he has asked no bonuses from any one, no free sites and has paid his bills as they accrued. If the town could ask for any finer class of citizen to settle down here and bring many thousands of dollars into the community, we would like to know it. The turpentine industry is going to be a big thing for us and it will be operating at least ten months of the year. Extensive tests have shown that our pine trees produce an excellent quality of gum and in good quantity. In fact the quality has been so fine that it even surprised Mr. Ernst, when he was making the tests. To think of utilizing such a storehouse of potential wealth without causing damage to the growing trees is adding to the world's supply of wealth in a tangible way and greatly benefitting Nevada City.

MINING CONTINUES TO prosper hereabouts and the coming year will see many properties being actively developed. It has been unfortunate that the water supply in the North Bloomfield ditch has not been more stable in character so that the Rescue Eula and Yellow Tiger companies operating on the Gaston Ridge could have gotten under way at a much earlier date. The irrigation district should fulfill its obligations to the people of the San Juan Rdge in a tangible way and keep water running in the ditch. The dedicated water rights of the upper country will have to be respected at all events as the diversion of the water from the Yuba watershed has presented a problem to be worked out to the satisfaction of the riparian owners. The courts have recently held that the riparian owners are guaranteed certain rights under the federal constitution that no state laws can override. The two mining companies which were promised a water supply from Lake Bowman now have enough "wild" water for the winter season to keep development work under way without further cessation and it is to be hoped that with the coming of spring that there will be no further trouble with the supply furnished the ditch at its upper end. Plans will be developed during the winter which will insure an ample power supply of some kind for next spring and make for operations of large magnitude between Washington and Graniteville somewhat akin to the old days. With the Twin Sister due to hole its tunnel through this winter, a mill to be installed at the German Bar and the considerable activity at Badger Hill where large crews are working the Siberia and Salmon mines, the upper country looks to be getting under way in good shape. Sierra County is looking up nicely with increased activity at Sierra City and this all benefits Nevada City directly. If the Sierra county supervisors would spend their efforts in improving the Yuba Pass Highway through Sierra Valley instead of going off on a wild goose chase down the North Yuba to accomodate Marysville with no great resultant benefit to the upper country, they could be helping thing along a lot.

THE COMPLETION of the Yuba Pass Highway between Downieville and Sierra City is certain of early fulfillment with our congressman at Washington keeping an eye peeled for appropriations. The clearing of the right of way is an important step and means that the Government is going to finish the job and complete the breaking of the bottle neck that has hampered travel greatly. The state of Nevada is reported seeking to help in the matter of keeping the route open through the coming winter rather than the flat car mode of transporation proposed by some enthusiasts, which is not a saving in expense after all. The Yuba Pass is a big asset to our country.

AN ENTHUSIASTIC RESPONSE has been made to our suggestion made last week that steps be taken to mark some of the scenes of Herbert Hoover's early days in this community. A number of people have remarked that the idea is a good one and that one of the local civic organizations should take it up and see it through to a successful conclusion. If the work is done before spring it will be in ample time. The campaign will have to be mapped out and workers assigned to the task so that the idea will not lag in its execution. There are many other historic spots that ought to be marked if some organization will take up the task and see it through.

NORTH SAN JUAN JOTS

NORTH SAN JUAN, Dec. 8, (Special to The Nugget)— The following guests took advantage of the excellent meals served by Mrs. Bradbury at the National Hotel.

Mr. and Mrs. McDonough of Sacramento spent the week end at the hotel.

Ben Atkinson, formerly of North San Juan, brought the following friends over from Oroville and spent Sunday here. They included Mr. and Mrs. Fitzgerald and Dr. Frances all of Oroville.

Mr. and Mrs. E. B. Frost were down from the Siberia mine.

George Thomas left Sunday for Antioch where he has a position, after spending several weeks with his aunt, Mrs. Bradbury.

Wm. Kessler is putting up a fence in front of his cottage and buliding cupboards in the interior.

Frank Woods came up from Grass Valley to spend Thanksgiving with Mrs. Woods.

Mrs. K. Fogarty and Miss Lucille Fogarty spent Friday in Nevada City.

Quite a number of hogs are being butchered and laid to rest in their salty brine awaiting th winter appetite of the Rodgers.

Mr. and Mrs. R. J. Dalberg and children of French Corral were here Thursday.

Miss Evelyn Jones returned to her studies at Berkeley after spending the Thanksgiving vacation with her parents. Mr. Jones drove her as far as Nevada City.

Stanley Housel and Levin Brown were in from Shady Creek Thursday.

Mrs. Joe Lavezzola of Downieville spent several days this week with her mother, Mrs. Henry Huckins.

R. E. Miesse stopped in San Juan for a few minutes Thursday enroute from his mine to Nevada City.

"Smiley" has been busy getting in his wintr's wood. "Heap cold weddr" he says. The last few days we have agreed with him.

The Ladies Aid met in the parsonage Thursday afternoon. The ladies are taking up the study of Africa.

Mrs. A. M. Cleveland and two children visited last Saturday with Mrs. Cleveland's mother, Mrs. Henry Huckins.

Most of the male portion of San Juan have suffered from light attacks of the flu. The ladies seem to have been more fortunate.

Mr. and Mrs. Gordon Kessler and son Everett, and Mrs. Monte, and son, Harold Beresford, went to Reno last Friday. Mrs. Monte and son a few days longer.

Homer Musfield returned home last week from his work at the Back Bone.

Misses Louise and Frances Moulton of French Corral visited friends in North San Juan Sunday.

Will Clerkin spent Thanksgiving with the J. J. McCulloughs.

CHEROKEE HAD AN INTERESTING HISTORY

CHEROKEE, Dec. 8, (Special to The Nugget)—News, written from and concerning the mines and mining of the vicinity of the old town of Cherokee situated about four and one half miles north west of the town of North Columbia and which formerly went by the following names after the name of Cherokee was abandoned, which was caused by losing the post office. The first name being Melrose, post office; the second was Patterson post office; the third and last post office was Tyler. We are in hopes of reviving the old post office of Cherokee as the name Cherokee, which was near Oroville has been discontinued. This place, "Cherokee' w'as founded by a band of Cherokee Indians in the early '50's and has had a wonderful experience, but after hydraulic mining was discontinued in the '80's has had a steady decline until at present it consists of but three dwellings, one of which is occupied by our worthy citizens, Mr. and Mrs. Louis Garibaldi, and one by our honorable mayor and mayoress, Roy and Mrs. McNamara and the other building (the old Morgan building) being occupied by Mr. Morris C. Wisler and his parents, Mrs. Olive P. Wisler and her husband, who goes by the name of "O. P." or Oliver. "Oliver" or "O. P." is quite a character and always has a good word for every one and especially the miners and old timers.

Well, here goes in the start and one thing that we wish to be under stood in and that is that we mean to write nothing but the truth and will follow the old saying, "Hew the line and let the chips fall where they will."

Oliver C. Carter is at present stoppnig with the Wislers, where he is waiting until the Siberia mine is ready to take on more men, which we understand will be in the near future.

"Ye scribe" made a trip to Nevada City on Tuesday with Mr. and Mrs. E .B. Frost, Superintendent of the Siberia mine, of Badger Hill, and on Tuesday made a "hurry up" visit to the "City" with Messrs. T. C. and Walter Biglow, the former owners of the Siberia mine, who made a trip, on business connected with the mine, we suppose so at least.

We understand that some of the "high ups" of the Salmon mine were at their property, on the first of the week and we are informed by what we take as good authority that they are well pleased by the way the mine is being handled by their superintendent, Mr. Ledbetter. He was formerly connected with the mines of South Africa for twelve years and who is in every way a perfect gentleman. Here's hoping that they make a success of the venture and there is no reason why they should not, as it was at one time a good producer w,hile being operated by a dear old friend of Charles E. Calmon.

Oliver C. Carten and Oliver P. Wisler are, at present enga.ged in getting out a quantity of wood for the Siberia mine, for winter's use. They seem to make a good pair as they seem to be happy at all times and surely are very much interested in the mining industry and in the future of the old town of Cherokee.

M. C. Wisler, our sign painter, who has been in Stockton for the past 10 days, returned to his home on last Saturday, for a short visit and on Sunday morning left for Stockton again to remain for some time. He was accompanied by F. W. Petett, who is assiting M. C. in his Peteet, who is assisting M. C. in his work. Mr. Peteet, who was formerly in the employ of the government at Port Orchard, Washington, later at Folsom, where he was the owner of a jewelry store and who had to quit his trade on account of his eye trouble. Here's hoping that Mr. Peteet regains the good use of his eyes and that he may conclude to go into business in this place.

We have been informed that our fellow townsman, Mr. or "Col." John C. Curnow has disposed of some of his holdings to the Parnall Mines Corporation. This property has on it a good spring from which the mine will draw a supply for their use.

We are informed that Mr. and Mrs. Menry Meyers have moved to the old Hughes ranch near the Oak Tree Rranch.

Mrs. Oliver Wisler received a letter from her sister-in-law in which she states she and her husband J.J. Defreese of McEwen, Oregon, will be leaving there for the Wisler's to spend the winted in different parts of California. We hope that they conclude to invest in or near Cherokee. Mrs. Defreese is a sister of O. P. Wisler and has resided in Oregon for some time and during the 80's her husband J. J. Defreese, was in the employ of the Applegate Bros. at Linkville which is at present known as Klamath Falls.

Mr. and Mrs. Ernest Bradbury, who have been at the Siberia mine for the past summer, have left for Oakland, on a visit with their children. Mr. Bradbury was the promotter of the Siberia mine, and we understand will return to live in Nevada City and from which place he will also promote other mines.

T. O. O'Brien, M. E. of the Hendy Iron Works, San Francisco, was at the Siberia mine on Saturday making an inspection of the mine and seemed to be very well pleased with the work that is being done under the direction of Mr. E. B. who is the superintendent in charge. He was met at the mine Sunday afternoon by a Mr. Benehman of Oakland and another gentleman that we do not now recall the name, but is interested in the mine, so we were informd, on what we took to be good authority.

Mr. O'Brien, M. E., has been in the employ of the Hendy Iron Works for the past 12 years and is considered an outhority on mining. While in Cherokee he made his headquarters at the Wislers. Come again Mr. O'Brien and you will be used as good as we can possibly use you.

Jas. P. Phelan, who is in the employ of the Siberia mine made a hurried trip to Camptonville in regards to a truck owned by the Oak Valley Sawmill and which he expected to purchase, to be used in conveying some heavy machinery from Auburn to the Siberia mine. but for some reason he did not secure the truck. Mr. Phelan is at present hauling gravel on the road leading from Cherokee to the Siberia mine getting the road in condition to do some heavy work on it as the mine is setting a a lot of heavy machinery shortly, and the roads will have to be in good condition in order to handle the traffic during the winter months.

O. P. Wisler is expecting to make a trip to Gridley, Oroville, Beckwith and other points in the near future. It is expected that Lester Jaynes will accompany him. He has been in the employ of the state highway for some time. Mr. Jaynes is a good man to employ on a truck and will in the future we hope be a resident of our burg.

Mrs. Jas. Phelan, our school teacher, is consideredalby under the weather and at present there is no school. This maks the second time she has been indisposed during this term. All are hoping for her a peedy recovery.

Louis Garibaldi as well as Roy McNamara are considerably indisposed at present. Mr. Garibaldi having caught cold which settled in his side. It will be remembered that he fell and broke several ribs last summer and the cold seems to have settled there. Now so far as we are concerned we have two weak spots, our throat and head and that's where our colds settle, Ha! Ha! Please do not take any offense Mr. Garibaldi 'Relsiw Yb."

P. S.

We, as loyal citizens should in every way that is honest and honorable assist the editor of The Nugget, by giving him all the aid financially, morally and otherwise, so that he with our assitance may make it the leading mining paper of the coast. The price of the paper is so low that there should be a copy of it in every good home.

Suscess to you in your endeavors Mr. Editor.

GRASS VALLEY PERSONALS

Mrs. Kate Young is spending two weeks with friends in San Francisco.

E. H. Hocking was in Marysville Wednesday.

Miss Nettie Packer went to Colusa Tuesday to spend the Thanksgiving holidays with her relatives.

Mrs. Charles Oliver was a San Francisco visitor recently.

Miss Clarice Hocking spent Thanksgiving in Colusa.

Mr. and Mrs. Archie Rowe spent a short time visiting in San Francisco.

Dr. and Mrs. D. D. Johnson have as a guest, George Ames of Lake county.

Mr. and Mrs. J. B. Underwood and children returned home Sunday from a visit of several days at Manton

Miss Janet Sampson, student at Mills College, spent the Thanksgiving holidays here with h.. parents, Mr. and Mrs. Wm. Sampson.

Mrs. John Rhodes of Marysville visited relatives here for a week.

James K. Cogswell is back from busines trip to San Francisco.

YOU'LL HAVE TO HURRY TO JOIN OUR 1929 CHRISTMAS CLUB

Now that the Chrismas Club idea is caching on, our parons are hurrying to join, with the result that within the past few days more than one hundred pople have expressed their desire to put away some sum ranging from twenty five cents a week to as high as five dollars.

All of these will have a check mailed to them next year about the first of December for all the money they have put away together with interest since the first payment was started. Of course the interes is not a large sum but its noticeabe and besides you'll have a snug sum wit hwhich to celebrate Xmas.

If you are in the habit of spending twelve dollars on presents, twenty cents a week will do the trick. If twenty five dollars arr needed to cover your gift bill, fifty cents a week will solve your problem. It's so easy, so sure, so pleasant and so inexpensive that it's a wonder everyone doesn's do it.

EDITORIAL

In every high school that has been in existence for several years there are certain customs which are observed each year. The Nevada City high school has several of these traditions. The freshman initiation in the fall, when all the freshmen are shown the ways of the world, starts our school term. Each year, each of the four classes gives a party. The freshmen and sophomores give their parties early in the school year at the high school gymnasium. The juniors give their prom, and the seniors their ball in the spring at the Red Men's Hall. At Christmas time, the seniors have a Christmas tree and gifts for the freshmen and faculty. In the spring the seniors give their play.

Our most cherished tradition is the publishng of the "Quill". This is the school annual, which has been published each year since 1903, with the exception of the year 1906. This publication is a record of all the school happenings for the year, illustrated by pictures. The money received from the sale of the books is not sufficient to cover the cost of publication. For this reason, and to help the business men of the community, a section is always reserved in this book for advertisements.

Our business manager for this year's annual is Carroll Coughlan. With the help of Bill Rector, the assistant manager, he hopes to make the advertising section of the "Quill" a more paying proposition than in previous years for both the high school and the business men. We ask you, business men, to cooperate with us, in this our most cherished tradition, so that our annual this year may be in all respects a "Golden Quill".

SENIOR PARTY

On Saturday night, December 8, the senior class of the Nevada City high school was delightfully entertained at a dinner and dance given by the class adviser, Miss Hoffman. Music for the dancing was provided by Pierson Tuttle and his orchestra

EDITORS MEET

The editor, Alberta Baker, and the assistant editor, Thelma Boreham, of the "Quill' staff, will meet at three-twenty o'clock, Monday, under the supervision of Miss Hoffman. They will make the plans for the "Quill". "Quill" work will not commence until after the Christmas vacation. Thelma Boreham was recently made assitant editor, because of the splendid work she did in her English project, which was the writing of a newspaper typical of the early nineteenth century.

JUNIOR RINGS

At last the members of the junior class have paid their student body dues and have had a meeting concerning their class rings, which were to be ordered on December 7. The rings this year, which are very pretty, are of gold with a top of black onyx and a gold "N. C" on a purple back-ground.

The class as a whole seemed to be very well satisfied with the rings. Yet despite their being pleased with the rings, the juniors were negligent in bringing their money. This money for the rings was due December 7. On that date, many juniors had not paid. We urge you, juniors, to be more prompt in your payment of money for class activities.

HONOR SOCIETY PARTY

Because of so much sickness in Grass Valley, he party planned by the Nevada City Honor Society for the Honor Society of Grass Valley, to be held December 6, has been postponed. It is hoped that the party can be given on Thursday evening, December 13.

Miss Hoffman—"Nancy, are you ill".

Nancy— "No, I was trying to think".

TALK ON PEACE

Mr. Wirt, a member of the Pacific Coast National Education Association, spoke to the Student Body in the assembly hall at eleventwenty o'clock on Monday, November 26. Mr. Wirt has been around the world three times and across the Atlantic about twelve times. He did Red Cross work during the World War and has been commissioner of education for Alaska. The purpose of his talk was to make clear the meaning of World Peace and its necessity. This talk was very interesting, and all the students enjoyed it.

N. C. HOOPSTERS WIN

Although playing after a hard trip and on a strange floor, Nevada City basketball teams won again last Thursday night. The victim this time was Part Time Hi., Sacramento

After Coach Pederson's big purple team got moving, the game was cinched. The boys scored points at will, and showed better form than in any previous games.

Our "Wonder Guards," Skeahan and Hogan were solid as a brick wall, forcing the "Capital City" boys to take very long shots.

The N. C. forwards, Brisebell and Evans, played a splendid game, and Pierce at center was in his usual scrappy form.

The final score of the "A" game was:—Part Time, 13; Nevada City, 28.

The "B" contest was a roit, with Captain Hoskin looping shots from all over the floor. Beegal and Sbaffi held down he Part Time score, with their fine guarding.

The final score, Nevada City 31; Part Time Hi., 15.

ENGLISH PROJECTS

On December 3, the English 111 classes, having completed the study of "Silas Marner", handed in projects, which were newspapers typical of the early nineteenth century.

All of the newspapers handed in were very good and showed hard work on the part of the students. Some of the papers were typewritten; others were printed by hand.

The class enjoyed the English period Wednesday, which was entirely devoted to the reading of hes newspapers.

JOKES

Mr. Pederson— (In speaking of he breaking up of petroleum). 'You use this for the breaking up of Napoleon."

Mr. Isensee (In chemistry)—'Just think, when I was in college —"

The class is still in a daze trying to think back that far.

There's peace in the household guarded by Castoria. Peaceful sleep for Baby. Uninterrupted rest for Mother. For a few drops of pure Castoria will quiet any fretful infant. Or put the little one back to sleep when there's an upset during the night.

Parents, don't try to do without good old Castoria! It isn't fair to the baby, and it makes things hard for you. You can't give Baby medicine meant for grown-ups—or shouldn't! Castoria is the solution. It is always safe. It always does the work. And although it acts as swiftly as an opiate or a narcotic, it contains neither. *Castoria is purely vegetable.* Give it whenever there's constipation, colic, diarrhea.

No less than five million modern mothers have come to depend on Castoria, for twenty-five million bottles were bought last year! Get yours today; don't wait for some night when it's needed, and the drugstore is closed!

Children Cry for CASTORIA

DO YOU REMEMBER

When Tom Hogan was five feet tall in his stocking feet?

When Carroll Coughlan wore high patent leather shoes with buttons?

When we studied the minimum essentials of South America?

When "Flossie" Smart wept because she made only "98" in a history examination?

When Bob White was first in his class?

When John Solaro wore blue overalls trimmed with red?

When Elbridge took first prize at the "Better Baby Show"?

When Alberta lost her pink hair ribbon?

When Helen Chapman learned the table of nines? Or did she?

When Mr. Davis and Miss Dooley bought the wind instrumnts for the orchestra?

When Nancy Jones came to school in the fifth grade?

WOULDN' IT BE FUNNY IF:—

Holden Pierce carried a compact and used lip stick in the study hall?

Miss Hoffman taught chemistry?

Mr. Isensee thought he was a cute little fellow?

Addison Jones moved swiftly?

Buddy Robert played the slide trombone?

W could see Spencer White's dimpled knees?

Carl Murchie should shrink?

Henry should walk to school at noon?

Bill Jeffreys weighed ninety pounds?

Lloyd White gave a news item in econi?

Mr. Kjorlie (in History) "Isabelle, what happened to Benedict Arnold after that?"

Isabelle: "Oh, he died."

How to Play BRIDGE
Series 1928-29 *by*
Wynne Ferguson
Author of "PRACTICAL AUCTION BRIDGE"

Copyright 1928, by Hoyle, Jr.

ARTICLE No. 5

Players generally seem to have the opinion that four-card suit bids are different from suit bids where the suit contains five or more cards. Such an opinion is erroneous, of course. The only difference between a four-card suit and a five-card suit is that the small cards of the former will average to produce one trick, while the small cards of the latter will produce two tricks.

For example, a four-card suit headed by the Ace-King will average three tricks—two for the high cards and one for the low cards. A suit of five cards headed by the Ace-King, however, will average to produce four tricks—two for the Ace-King and two for the small cards.

In other words, there are two kinds of trick takers in Auction: high cards, such as Aces and Kings; and small cards which become trick takers as a result of various combinations of length in suits. For this reason, before you start to make bids on suits of only four cards, remember that such a suit will average to produce one trick less than the same holdings in a five-card suit. If you set the minimum number of tricks in high cards that must be held to justify a bid with five cards of a suit, you must logically increase that minimum by one trick when you bid four card suits.

For example: With the following four-card suit holdings, you should hold the number of tricks specified in plain (side) suit to make the four-card suit a justifiable original bid.

Four-Card Suit Holding	Strength in Plain Suit Must be High Cards
A, Q, 7, 5	One Trick
K, Q, 10, 4	One Trick
A, J, 10, 6	One Trick
K, Q, 4, 2	One Trick and a Half
A, K, 3, 2	One-half Trick

The above holdings are about the only justifiable original four-card suits that should be bid and then only as dealer or second hand. If you will study this table and rigidly follow the requirements for high card tricks in plain suits, you can bid four-card suits without getting into trouble. If, however, you bid four-card suits without outside strength, you will have trouble and plenty of it.

Here is an interesting hand that shows the value of taking out certain suits in one's own hand and partner's and then forcing the opponents to lead the other suits to their disadvantage. Such play is called "elimination" or "stripping a hand".

Problem No. 5

Hearts—K, 7, 6, 2
Clubs—Q, J, 9, 6
Diamonds—K, 7, 4
Spades—Q, J

Hearts — Q, 9, 4		Hearts — A, 10, 5
Clubs — 5, 3, 2	Y	Clubs — K, 10, 8, 7
Diamonds — J, 10, 8, 6, 5	A B	Diamonds — A, Q, 9, 4
Spades — 8, 3	Z	Spades — 7, 5
	Hearts — J, 8, 3	
	Clubs — A, 4	
	Diamonds — 2	
	Spades — A, K, 10, 9, 6, 4, 2	

No score, rubber game. Z dealt, bid three spades and all passed. A opened the jack of diamonds which held the trick. He then led the ten which Z trumped in his own hand. How should Z now play the hand to make game? Solution in the next article.

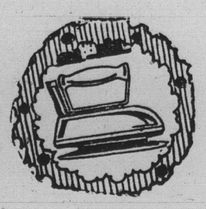
Answer to Problem No. 4

	Hearts — Q, 9, 7, 2	
	Clubs — A, 10, 9, 2	
	Diamonds — K, 5	
	Spades — 7, 4, 2	
Hearts — 8, 4		Hearts — 6, 5
Clubs — 8, 6	Y	Clubs — K, Q, 5, 3
Diamonds — Q, J, 7, 4	A B	Diamonds — 10, 9, 8, 3
Spades — A, K, J, 8, 5	Z	Spades — Q, 9, 3
	Hearts — A, K, J, 10, 3	
	Clubs — J, 7, 4	
	Diamonds — A, 6, 2	
	Spades — 10, 6	

No score, rubber game. Z won the bid at four hearts. A led the ace and king of spades and then the queen of diamonds which was won in Y's hand with the king. How should Z now play the hand so that he can win four odd against any defense?

Solution: Z should take two rounds of trumps, thus eliminating the trump suit in his opponents' hands. He should then lead the ace of diamonds and follow with the six of diamonds, trumping in Y's hand with one of his two remaining trumps. Y should now lead his last spade and trump in Z's hand with one of his three remaining trumps. In this way both Z's hand and Y's have been stripped of spades and diamonds. Only the club and heart suits are left. Z should now lead the jack of clubs and let B win the trick with the queen. No matter what B leads, Y Z must win the balance of the tricks. If B leads a club, two of Y's clubs are good, and Z's trumps will take the other two tricks. If B leads a diamond, Z should discard a club and trump in Y's hand with his last trump. In both instances, therefore, Y Z must win the remaining tricks and therefore score game and rubber. It is a very pretty illustration of the elimination play and should be closely studied.

Give Something Electrical



SHE WILL APPRECIATE GIFTS THAT LIGHTEN HER TASKS

We have a large stock of electrical appliances that are intended for use in the home, that would be greatly appreciated by any woman as a Christmas gift.

Our electrict Percolators, Irons, Vacuum Cleaners, Fans, Heaters, etc., are the best on the market and our prices just as moderate as those obtaining anywhere.

Give something electrical this year!

FRENCH CORRAL ITEMS

FRENCH CORRAL, Dec. 8, (Special to The Nugget)— Again hunters abound for the quail season is open. The good rain of Sunday afternoon and night made no difference for you can hunt quail in rainy weather. But it is rumored that there is a scarcity of the good bird this year. Perhaps many have died this past summer for want of water, where so many streams and springs dried up.

A meeting of the S. J. R. W. A. was held Sunday. Our chairman, S. McCullough, reported that the repair work on flumes and ditches, from Bowmans down he line, was completed, and if no obstacles are put in the way, water should be coming into San Juan and even into Sweetland. This work has been slow of completion because so many obstacles have been placed in the way, and operations were delayed.

Despite all Mr. MuCullough has stood heroically by the work, and has seen it to its finish. His power of endurance, both physical and mental, must be great, and he certainly deserves the everlasting gratitude of the people of the San Juan Ridge. There are some debts in this life that can never be repaid by money. Our Association has much to meet, but our hearts are stout and our cause is just and we want our rights, and are willing to work to see the old San Juan Ridge come into its own again.

George T. Coffey of Oakland and George Hothersoll of Nevada City came to French Corral Friday afternoon. The many friends of Mr. Coffey will be pleased to know that as he has been quite ill during the summer months. But he is able to take part in his favorite sport and carry a gun and roam the hills that he knows so well in his old home country once more.

Harry Bdowning made a trip to Downieville Saturday.

W. E. Moulton made a business to Marysville Saturday.

W. P. Clerkin came down from Pike City Saturday and remained over Sunday to be in attendance at the meeting of the S. J. W. A.

Bill McCullough was a Sunday visitor in French Corral.

Mrs. M. E. Langley and Miss Del of Nevada City were Sunday visitors.

Clyde Browning returned to Nevada City Sunday afternoon.

Mr. and Mrs. Joe Fogarty of Hammonton are spending some time at Mr. Fogarty's old home in Birchville.

Mr. A. Browning had business in Nevada City Monday.

J. W. Culver made a trip to Nevada City Thursday.

Thos. Meyers is visiting his sister, Mrs. M. Mitchell of Grass Valley.

A. Browning, N. B. Bishop, C. H. Jones and Chas. Wienman did some repair work on the cut off near the Thompson place.

Miss Louise Moulton returned to her school duties in North Bloomfield Monday aftrnoon after spending several days with her parents in French Corral.

Through an oversight on our part we omitted congratulations to The Nugget on its second successful year. Our good wishes for continued and increasing prosperity are always with it.

Dan Magnigal, mining man, came redown from Downieville and spent a few hours here Saturday.

James K. Cogswell spent last week end in San Francisco.

THE NUGGET INDOOR SPORT COLUMN

FOUR TEAMS FIGHTING FOR SECOND AND THIRD PLACES

The eighth round of play finds four teams in the Elks bowling league fighting it out for second and third positions, the Jacksons securely in the top row and the Nugget cellar champs hopelessly in the rear. With two weeks to go it looks on the face of the two weeks remaining play that the Schreibers willwill cop second place and the Mobleys third.

The pins did not fall as lively the past week as they have been, the only hign marks being a 213 by Hogan and a 203 by Dave Richards., the cleaver operator from lower Commercial Street. The shoe merchant has been rolling a steady game and where the tournament committee had him listed for a 110 average man is beyound comprehension and is particularly the cause of the lopsided scoring duchine yclept Jacksons. The committee made good guesses on the middle four teams and their play would make a tournament interesting to the last game. The middle four have had a lot of pin spillers who have been anxious to get into the fray and do their stuff and this has made for team work of the right kind.

Bob Carr climbed into second place in the individual averages while Grove and Hogan each hoisted their averages three pins and are well up in front. Penrose and Dave Richards climbed a few rounds by consistent work the past week. Mobley is secure in first place with no one in hailing distance for the remainder of the tournament. Pierce got back into the fray last week after an absence of several weeks and showed that he could hit louie when he rolled 189 in the concluding game. He and Hegarty had a turkey apiece in that game and put the game on ice early.

With the second round soon out of the way the talk along the bowling Rialto has been as to what disposition the committee will make of the teams for the next tournament. With four well balanced teams in the running it should not be a difficult task to arrange the other two so as to secure strong competition.

OUSTOMAH LODGE HAS AN INTERESTING HISTORY

The Oustomah Lodge was institut ed Nov. 4, 1853 by S. H. Parker Grand Master. A. A. Sargent, Henry P. King, J. B. Van Hagen, Levi P ustin and Benjamin F. Fennell ob ining the Charter.

In 1856 this Lodge was burne ut losing everything. In 1863 again urned out losing all but charte nd records. The present home wa edicated April 26, 1873.

The name Oustomah was take rom an Indian Chief who lived in ndian Flat, west of town. He wa ell liked. The name means swif unner.

1038 Odd Fellows have been ad itted into its membership. Presen nembership is 145. They have 7 nembers who joined the Lodge 50 ears or over ago. Edwin Smith ohn Cogar, Abram Blummenthal J. G. Poor, George Victor, Hugh Murchie and J. G. O'Neil. The old st member is J. G. Poor, a resi ent of the I. O. O. F. Home.

The nucleus of the present Neva la City Carnegie Free Library wa donated to it by Oustomah Lodge being the books purchased in 1874 rom the Nevada Library Associa tion, added to and kept open t he public by the Lodge until 190?

Members who afterwards becam distinguished were: A. A. Sargent Congressman, Senator and Ambassa dor to Germany; Niles Searles Chief Justice of California; T. B Hawley, Chief Justice of Nevada; W. W. Cross, Superior Judge Tular County; J. M. Walling, Superio Judge of Nevada County, in Lodg work Charles Marsh, Grand Repre sentative to Soverign Lodge; A. R Lord, a Grand Patriarch and Repre sentative to Soverign Lodge.

On July 6, 1905, Brooklyn Lodge, No. 46 of You Bet and on Nov. 10, 1920, Samaritan Lodge. No. 126, of Washington, were consolidated into Oustomah Lodge; also 12 members of defunct Union Lodge No. 48 of North Bloomfield united with them

Joseph Laviolette, who formerly lived in Nevada City, was fatally injured last week when a board from from the planer he was operating struck him in the stomach, causing injuries from which he died.

Nevada City to San Francisco, 3 month limit, $11.05. from Grass Valley, $10.75.

Nevada City to Alameda, Berkeley or Oakland, 16 day limit, $8.75; from Grass Valley, $8.25.

Nevada City to Alameda, Berkeley or Oakland, 3 month limit, $10.80; from Grass Valley, $10.50.

Nevada City to Sacramento and return, sold every day, limit 14 days, $4.50; from Grass Valley, $4.00.

AMPTONVILLE CONTD

The fish hatchery at Indian Valley is about completed and will soon begin operations. The crew of workmen from here who have been assisting in the construction of the hatchery finished Wednesday, and only a few days more remain for the men from the commission at Sacramento, who had charge of the construction work.

The quail season opens Saturday, but it is too late for this locality for by this time of the year most of the quail have passed to the lower altitudes, and there is not much incentive for local people to go quail hunting.

Chester Butz of Oroville was in town Wednesday.

William Hoeff passed through town Tuesday from Bald Top mine enroute to Dobbins.

Wm. C. D. Body to Peter A. Loewan—portion Lot 23, Block 43, City of Grass Valley.

BITS OF HUMOR

What to say to some one who has circled the globe in 23 days, mostly by air, is always a problem. Perhaps as good as anything would be "I see you're up and around."

One thing is certain: the signing of the anti-war pact will oblige the representatives of the various nations to keep their fingers on the pen instead of on a trigger.

The Letter Box

Mrs. L. R. Harrison— "We find The Nugget quite interesting and instructive."

Mrs. Fred B. Hanson went to Loomis Tuesday on business.

A Radio Christmas

There's no better gift than radio, says Santa, and we agree with him..... Radio brings important musical, political and atheltic events through the air RIGHT INTO YOUR OWN HOME! . . . It's a modern necessity.

We have the ATWATER-KENT, the best radio on the market at the lowest prices in town. Completely equipped and installed in your home, ready to snap on the switch. Our service department is always at your call.

Take advantage of this opportunity to give the PERFECT GIFT. Radio brings happiness to all in the home.

Wonderful, up to date sets, large or small, simple or highly ornamented, specially priced for Christmas.

NEVADA CITY GARAGE

THE NUGGET PAGE OF MINING NEWS

PREPARATION AND USES OF FELDSPAR ARE VARIED

The average person probably has but little knowledge of the mineral feldspar, whereas the material really has its place in the everyday life of all, points out the United States Bureau of Mines. The plate from which one eats his meal is glazed with feldspar. Our enamel cooking ware, enamel sinks and bathroom furniture are practically all glazed with a composition containing feldspar, so that the mineral might in fact be called a close family friend instead of a stranger.

The uses of feldspar are manifold. Its principal use is as a flux in the pottery, glass, and enameling industries, including tiles, porcelains, and so-called marbles that find their use in hotels, restaurants, drug stores, and other places where a vitrified surface is desired for sanitary reasons. It is also used as an abrasive in scouring soap, as a binder in the manufacture of abrasive wheels, as poultry grit, as a constituent of roofing material, and in stucco or pebble dash. Small quantities of the purest grades of potash feldspar are used in the manufacture of artificial teeth. Efforts to use feldspar as a source of supply of potash on a commercial scale continue, but claims of success remain unestablished.

Probably all the feldspar consumed industrially, except that used for facing cement work, for covering prepared roofing, for "chicken grits", and like purposes, is prepared by fine grinding .Even for such uses the spar is at least crushed to small sizes and more or less graded by creening.

Information in regard to the feldspar industry of the United States is contained in the Bureau of Mines publication, "Feldspar in 1927", by Jefferson Middleton, which may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C., at a price of 5 cents.

SAMPLINB BENEFICATION OF MANGANESE ORES

Labratory work on the benefication of manganese ores being conducted at the Mississippi Valley Ex-States ureau of Mines, Department of Commerce, has brought out some facts of interest to the metallurgist. On rhodochrosite samples from the Butte, Montana, district thus far tested, flotation, gravity concentration and magnetic separation processes have been tried. Flotation is very promising. Good separations have been made between rhodochrosite and quartz by this method T.he sulphides in the ore can be floated with the usual reagents, xanthate, copper sulphate and pine oil, and the results indicate that these refgents have no deleterous effect on the subsequent flotation of the rhodochrosite by the use of sodium oleate. Gravity concentration may be employed to reject about half the silica in the oré so that a better grade may be ground for flotation. It a part of the silica could be removed by gravity concentration before grinding to flotation size, the cost of grinding would be reduced and the enriched flotation feed thus obtaned would be more amenable to cleaning. An electromagnet may be used to remove the rhodochrosite from the quartz. Further details will be given in the report to be issued in the near future by the Bureau of Mines.

GRASS VALLEY PERSONALS

Miss Clarice Bennetts and Miss Fern Trezise are home from a few days spent in Berkeley.

Mrs. J. R. Kneebone and Mrs. Thomas Hart visited in Sacramento Tuesday.

Robert Deward, univesity student, came up from Berkeley Wednesday and visited Mrs. Lillian Deward and family.

Mrs. W. R. Covrson of Gashan Indiana, is visiting with Mrs. E. D Chipman and Mrs. J. Sampson.

Joe Moran and Matt Argall, Pharmacy students of the University of California, came up from San Francisco and spent the week end here with relatives.

Will and Paul Ullrich of Chicago Park were business visitors here Monday.

Mrs. Robert Ingram and children spent a week in Berkeley visiting her parents.

After spending Thanksgiving here Miss Nadine Tupper has returned to her school duties at Ripon.

Mr. and Mrs. Ed Lambrecht of Browns Valley visited Vivian Hosking and wife Sunday.

Mrs. John Glason and daughter, Miss Bernice, spent a week in San Francisco.

SIERRA COUNTY MINING

(The Messenger)

William Lloyd is doing some prospecting work underground at the Standard Mine in Sailor Ravine.

The new quartz mill at the Oro mine in Downieville is completed and ready to begin crushing ore. The mill is to be run by electricity to be furnished by the York plant, and Mr. York says he has ample power now when the water in the river is so low, to furnish the necessary power. Some minor work is being done on tramway cars and a few men are now working underground in the different tunnels doing development work.

We understand that John Schofield and Andrew Modglin have a contract to run what is known as the Brady tunnel, on the Erwin gravel property on Chapparal Hill, ahead to find the gravel. Something like 19 years ago a man named Brady had this ground under bond and ran a 600 foot tunnel into the hill, putting up a raise to gravel at the face. The San Francisco fire and earthquake hit Brady a hard blow and he was not able to continue work. The property is now a part of the ground under bond to Chas. E. Herron and associates, and the work is being done as part of their plan of development.

Two miners are working in the winze at the Bessler mine just now, which winze is down in the neighborhood of 45 feet. Messrs. J. E. McDonald and E. Z. Schuler, who form the Mutual Security Co. and are developing the Bessler property under a band, were here from Oakland during the week looking over the property. We are told they intend to bring a power line from the isconsin mine in Rock Creek down to the Bessler mine in Downieville, with the idea of running all their machinery by electricity. It is hoped to be able to put in this line right away, but as there is considerable snow on the ground near the City of Six it is hardly likely it will be done until spring.

COURT CALENDAR

Raglan Tuttle ..... Superior Judge
Frank Steel ..... Clerk
Miles D. Coughlin ..... Reporter

Estates of Cornelius Desmond, E. B. Richards, Jeanette Towle, deceased—final discharges of administrators and executors.

Estates of L. P. Larue, Florence H. Larue, J. H. Kohler, J. G. Kohler, deceased—Decrees due notice to creditors.

Estate George C. Trewren, deceased—final account settled and distribution granted.

Estate M. A. Mitchell, deceased—J. T. Mitchell appointed administrator.

Guardianship of Wilford J. Hill, a minor.—Order granting allowance from estate.

Estate James George James, deceased—will admitted to probate nd George H. James appointed executor, without bonds. Judge Mulroy appointed appraiser.

William Hocking vs. Thomas M. Harris as administrator—default judgement in favor of plaintiff.

George W. Cooper vs. A. R. Wadsworth, et al.—default judgement entered in favor of plaintiff.

Frank Dillon vs. Gilman Brown—case tried and submitted.

BITS OF HUMOR

A dumb wife is one who finds a pawn ticket in her husband's pocket and wonders why he didn't get two so they could both go.

One of the mysteries is how Jenny Lind, Florence Nightengale and others of their day managed to sing without the help of the well-advertised throat remedies that today make vocal exercises a pleasure.

When every family owns a radio doubtless the high power salesman will begin advocating a radio for every room.

Considering the masculine penchant for carrying everything portable in the coat pockets, it is strange the hunting coat hasn't come into every day use.

BANK OF AMERICA
OF CALIFORNIA

BY the consolidation of the United Security Bank and Trust Company of San Francisco with fifty-four branches and its forty affiliated banks, and the Merchants National Trust and Savings Bank of Los Angeles with thirty-five branches, there is now formed the Bank of America of California, an institution new in name but old in experience and rich in resources.

With no loss of identity, and with no change in management, banks that have served California so well now join in a state-wide system with aggregate resources of four hundred million dollars.

Depositors will find that this change brings to their community California's largest State Banking System—yet not too large to give personal attention to every customer.

The Bank of America of California faces the future, firm in the belief that the progress and prosperity of this State will be reflected in the growth of this institution.

SOCIETY HAPPENINGS OF THE PAST WEEK OF VICINITY

MISS ISABELLE BENNALLACK WEDS MR. FRANK HOOPER IN PRETTY CHURCH WEDDING

One of the society events of the winter season was the wedding Saturday evening of Miss Isabelle Bennalack, daughter of Mrs. Nini Bennanallack of Grass Valley, to Mr. Frank W. Hooper. The beautiful ring ceremony of the Episcopal church was read by Rev. Charles W. Pearson.

Emmanuel Episcopal church was beautifully decorated for the occasion with fernery and toyon berries and formed a leafy bower. Prior to the ceremony, Mr. Chester Prisk sang "Because" with Mr. Carlton Peters at the pipe organ. Mr. Peters then played the Lohengrin wedding march as the bridal party came down the aisle. The bride, who was dresed in blue chiffon and carried a bouquet of Cecil Breuner roses and lilies of the valley, was attended by her sister, Miss Florence Benallack, gowned in georgette velvet chiffon in claret wine hue. Mr. Clinton Hull of Berkeley, schoolmate of the groom attended Mr. Hooper.

A reception was tenderd the bridal party and the guests at the A. G. Chegwidden home following the ceremony. After a honeymoon trip the young couple will take up their residence at 150 south Auburn street.

The bride is a charming and talented young woman and is an accomplished musician. She is a graduate of the Grass Valley schools.

The groom, who is a son of Mr. and Mrs. Al Hooper, is associated in business with A. M. Holmes of Nevada City, having charge of the Grass Valley office. He has a winning personality and has made a wide circle of friends who are extending to him and his brde every wish for a happy future as their bark sets out on the matrimonial sea.

Mr. and Mrs. Eugene Englebright visited friends here last week end. They are former residents.

Mrs. Gove Celio and daughter, Catherine spent last week end in San Francisco.

William Litchenberger superintendent of the Brush Creek mine, was attending to business affairs here Wednesday.

COURT CHRISTOFORO COLOMBO WILL GIVE A DANCE

Court Christoforo Colombo will give on of its excellent dances in Foresters Hall on Saturday evening, the 22nd of this month and which promises to be largely attended. A San Jose accordeon player will furnish the music.

at the movies

MONDAY—Jack Holt in "The Avalanche." A Zane Grey story with a punch.

TUESDAY and WEDNESDAY—"White Shadows," an alluring story of the South Seas with color aplenty. 'Spook Spooting" is the comedy.

FRIDAY—"Fangs of the Wild" with Ranger, the Dog. The Serial "Vanishing West" will also be shown

SATURDAY—"Vanishing Venus" with Charley Murray and Louise Fazenda and Thelma Todd. The comedy is "Horse Shy."

SUNDAY and MONDAY—"Sawdust Paradise."

Appraised that the department of agriculture has just decided to list watermelon hereafter as a vegetable, rather than a fruit, the Observer wants the bureau of mines to classify cantaloupes as a mineral.—Detroit News.

MISS WANDA CHATFIELD WINS A TYPING PRIZE

PIKE CITY, Dec. 8, (Special to The Nugget)— Miss anda Chatfield high school student was awarded a prize last week in the Camptonville high school for her good work in typing. She attained a very good record considering the time she has been devoting to this subject.

Jessie Smart of the same class, made the second best record.

Mr. and Mrs. William Menhennett of Mesa, Arizona, are visiting in Nevada City and Grass Valley with relatives and friends. She is a daughter of the late William Reynolds. Mr. Menhennett operates a chain of motion picture houses.

Miss Margaret Orzalli, who is training for a nurse at Sisters Hospital, Sacramento, is very ill and her mother was called from here to be at her bedside.

HIGH SCHOOL ENTERTAINS

The Camptonville high school was host to the eighth grade of the union grammar school last Wednesday. The grammar grade had proved the winner in a game reently played and it fell the part of the high school to give them a party which they did at this time.

Games of various kinds were played, and a general all around good time was enjoyed. Refreshments consisting of delicious home made candy, hot chocolate, and cake were served during the afternoon. The teachers, Mrs. Kate Hope Livingston and Miss Doris Nightengale also were n attendance.

The many friends of Mrs. S. C. Hieronimous, Sr., will be pleased to learn that she is recovering from a recent serious illness.

Mrs. J. H. Eden has been quite ill with the flu.

Births

BORN— To Mr. and Mrs. Walter Hegarty on Tuesday, a daughter. She was named Carmen Rose.

BORN—To Mr. and Mrs. William J. Grentree of Grass Valley, a son on Monday.

Dr. Stork paid both visits at the Nevada City Sanitarium.

Frank Guenther was able to return to his home after a recent operation for appendicitis at a Grass Valley hospital.

Wells Webb of Berkeley spent Thanksgiving with Mrs. L. B. Jaynes and family.

The children of Mr. and Mrs. Clayton Bennett are greatly improved from an attack of scarlet fever.
